

The Superintendent's Broadsheet

Revere Public Schools

Vol. 8 No. 15
January 10, 2019

Beachmont

Ms. Amstutz's fourth graders used multiple print and web sources to conduct research on a chosen topic related to renewable energy. Some examples of research topics were geothermal energy, hydropower, solar energy, climate change, and pollution. After they took detailed notes, they created either a poster or a Google Slides presentation to present their scientific findings to the class. Students worked very hard on their self-directed research and practicing their presentation skills.

Garfield

As the weather continues to get colder we want our students to be warm and comfortable so that they can concentrate on their school work. Students are welcome to wear Navy Blue, White, or Kelly Green sweaters or sweatshirts over their uniform shirt. ***To be considered 'in uniform' students' sweaters and sweatshirts must be a uniform color and should not have any writing or pictures.*** GES will be hosting a parent workshop on Thursday, January 10, at 3:00 pm for families with students in Grades K-5 focusing on "Uncomplicating Math". Are you unsure about the strategies used to teach math concepts today? Do you want to understand more about what your child is learning in math class.

Garfield Middle

This week at GMS the 7th and 8th grade Rock Ensembles and 8th grade Chorus, under the tutelage of Mr. Bolton, have been gearing up for their winter concert which will be held on January 18th. The event is free and open to families and guaranteed to be an excellent start to 2019. Students have also been proposing innovative additions to the Garfield including a school newspaper and student government. Finally, parents interested in getting involved with the PTO and school fundraising may follow the GMS PTO on remind.com by clicking the following link:

Hill

Students at the Hill Elementary School participated in the audition process for the Massachusetts Music Educators Association All State Treble Choir. Students in 4th-6th grade across the state of Massachusetts are eligible to audition for this select choir. Out of all students who are audition, approximately 200 students are selected. This year, eight students from the Hill Elementary School auditioned. One student, Isabella Aquino in 5th grade, was accepted to the group. Isabella will perform alongside other students in March in downtown Boston. We are very proud of all the hard work of all our students and special recognition to Isabella for being accepted!

Lincoln

Our PBIS theme for January and February is making good choices outside of the classroom. Specialists and intervention teachers will be watching out for great behavior at the Lincoln. Students will be rewarded with points for participation, solving conflicts, completing assignments, appropriate voice levels, and showing respect. As a reward, our kids will be making snow globes in February. A special thanks goes to our PBIS team for spearheading this effort and activity.

Paul Revere

On Wednesday, January 9th, we welcomed in our third grade families for a classroom visit and breakfast with the teachers. We had an amazing turnout and our classrooms were jam-packed with visitors. These grade level visits have quickly become one of our most popular family events. Parents spend 30 minutes in the classrooms engaging in lessons and activities with their children and then get to mix and mingle with teachers and other parents for a light breakfast in the cafeteria. Classroom teachers and support staff

interventionists have been able to build meaningful relationships with parents during this time. On January 25th, we will welcome in our 2nd grade families from 8:30-9:30 AM. Follow us on Twitter @Innovation395 to see photos from this and other school events.

Revere High School

As we enter the height of the college application and acceptance season, four RHS students have been honored with the following prestigious Awards. Juia Tran (Dartmouth College, Hanover NH) and Trang Nguyen (Washington & Lee University, Lexington, VA) have received the National Questbridge Scholarship, a national program that connects high-achieving, low-income high school seniors with full scholarships to the nation's top colleges. These are the first Revere recipients to this esteemed award! Seba Ismail (Bucknell University, Lewisburg, PA) and Ebra Yilmaz (Bryn Marw College, Bryn Mawr, PA) both received the Posse Foundation Scholarship for diversity of leadership. Congratulations to these students, their families, and the many educators that have helped them along the way.

Rumney Marsh Academy

The RMA would like to thank Paraprofessional Tracey Beaulieu and Literacy Coach Ashley Cinelli for all of their work in bringing various Book Fairs to the RMA, providing students with the opportunity to purchase books for reading outside of the classroom. Perhaps more importantly, these Book Fairs serve as a valuable means in stocking our own school library. This year's final book fair will take place from January 31st to February 7th and all proceeds from this fair will, once again, be used to purchase books for our expansive library. Families can order online at <http://www.scholastic.com/bf/rumneymarshacademy1>. Thank you to Ashley, Tracey, and our entire school community for supporting this worthy endeavor!

Seacoast

On Friday, December 21st the SeaCoast High School Student Representatives planned, organized, and conducted our Pancake Breakfast to celebrate the holiday season for the entire SeaCoast community. The students representatives helped prepare for the event, cooked, cleaned and symbolized the qualities of a SeaCoast student-leader. Thank you to all student representatives and their Advisors, Mr. David and Ms. Hunter-Smith for creating this wonderful event.

Susan B. Anthony

Sixth grade students at the SBA middle school have been collecting winter essentials, such as hats, mittens, and gloves over the past few weeks. The winter items will be delivered to the Boston Health Care for the Homeless Program this week. Students were eager to help those who are in need during this holiday season with their generous donations. #sbapride

Whelan

Whelan's students in grades 2-5 have been working hard this week completing their Math Mastery Connect & students in K-5 will be completing their winter DIBELS assessments next week. Our EL students have been working hard and have started their Wida Access assessments which will be throughout this month. Looking ahead on our calendar, please note that there is no school on Monday, January 21st and there is an early release day on Wednesday, January 30th.
