June 25, 2020

Dear Colleagues and Families,

Today, Governor Baker's office and the Department of Elementary and Secondary Education released their initial guidance about reopening schools this fall. We applaud the level of thought and care that went into the development of this guidance, and share its goal of the safe return of as many students as possible to in-person school settings in order to best meet students' academic, social, and emotional needs. We also applaud the Commissioner's attention to the need for additional funding.

Over the coming days, we will be reviewing the guidance to begin to understand how it impacts what we can do in Revere. We also acknowledge that these initial guidelines do not address every topic and that there will be additional guidance coming throughout the summer. The full document can be found at <http://www.doe.mass.edu/covid19/return-to-school/guidance.docx>, but here are some key components:

- Current medical research supports a safe in-person return to school - with preventive measures in place - as infection and transmission rates are lower for children than adults.
- Preventive measures include masks/face coverings, physical distancing, handwashing, and cleaning frequently touched surfaces
- Masks/face coverings will be required for all students in Grade 2 and above and for all adults; they are recommended for students in Grade 1 and below
- Based upon current medical research, and in conjunction with other preventive measures, a minimum physical distance of three feet has been established

Districts will need to develop three separate plans - one for return to full in-person instruction with safety requirements, one for full remote learning, and one for hybrid learning that combines in-person and remote learning. Based upon the current medical situation, the expectation today is that students will return to full in-person instruction in September; however, that is subject to change based upon how the medical situation develops.

We acknowledge that there are likely to be more questions than answers at this time, and we will continue to communicate with you in the coming weeks and months. We also encourage you to read the full document at <http://www.doe.mass.edu/covid19/return-to-school/guidance.docx>, and if you have questions to please send them to our dedicated email address: 2020reopen@reverek12.org

We collected a great deal of feedback from parents and teachers at our Virtual Town Hall on Tuesday. We will be sharing a summary of that meeting and collecting more information through our parent and staff surveys about returning to school which will be sent by email the week of July 6th. Please watch for that and complete the survey to help us with planning. We will also be looking for parents, staff, and students to serve on our Planning and Implementation teams as described in the commissioner's guidance. If you are interested in that work, please send an email with your name, relationship to the school department (parent, teacher, custodian, student, etc.) and which part of the work you would like to help with (see page 16 of the Re-opening guidance) to 2020reopen@reverek12.org

Thank you for your patience and understanding and be well,
